### RAE and the Development of Free-Fall Nuclear Weapons

Doug Bateman

Doug Bateman is a retired RAE Weapons Scientist who has researched the Royal Aircraft Establishment's participation in the development of Yellow Sun, Blue Danube, Red Beard and WE177 Weapons. In his talk he will concentrate on WE177, supplemented by films of trials. RAE was deeply involved with the design and development testing of practically all the non-nuclear components, fuzing and arming, the safe carriage and release, and life extensions.
