

Location Filming 2025

Registered charity No: 1040199

Email: secretary@airsciences.org.uk

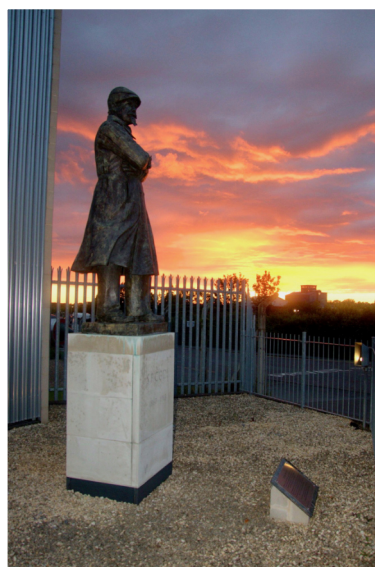

Permission to "Film" must always be applied for in writing or by e-mail to the Museum Manager (manager@airsciences.org.uk), at least seven days before filming starts and should be accompanied by evidence of relevant Public Liability Insurance.

The application should contain an overview of the intended activities and details of those parts of the Museum required to be used.

Every Filming Group will be assigned a FAST 'Mentor' whose guidance must be followed at all times. When filming in and around the museum great care must be taken not to damage any artefacts, or the building itself.

This is particularly important when filming in or around aircraft.

The use of actors is permitted but their proposed actions must be cleared with the FAST Mentor before filming.

The use of animals is not allowed.

PLEASE NOTE: Individual Museum facilities are not available during Farnborough Air Show Week, but the entire Museum is available for hire via our Air show Hospitality Package.

Please enquire for more details.
